

# ARE YOU READY TO RECORD YOUR HIT SONG?

*You will be after this workshop!*

**Learn how to save money on demos and masters by understanding the “secrets” of pre-production and home studio production.**

*This step-by-step, hands-on training workshop will help you navigate the home recording studio process utilizing computer software such as **Pro Tools, Apple’s LOGIC, Digital Performer, Cubase** along with stand-alone recorders. Held in a commercial recording studio, the workshop will also cover essential recording techniques every home studio owner should know.*

**Just like the pros, we’ll start with pre-production –the most overlooked stage of the process.**

- You will learn the essential questions every pro-minded producer must answer BEFORE recording.
- **Everything from arrangement and key to song modeling and construction.**
- By using a current hit song as your guide, you will learn the keys to cracking the code to recording your unique sound.
- **Learn how to maximize the quality of recordings from microphone selection to final mix and mastering.**
- Learn how to master other techniques and popular plug-ins: compression, limiters, EQ, Auto-Tune and Celemony.

**SAT. DECEMBER 3rd**

**10:30 AM – 4:30 PM**

**SHELTER STUDIOS**
